## Microtek ScanMaker 3880 / 3880 Photo

### Entry Level Scanner with Three One-Touch Buttons

ScanMaker 3880

LightLid 35

The ScanMaker 3880 from Microtek is the perfect entry level model for all who need scanning at home, in the office or for school. Three convenient buttons make scanning a simple one-touch process. Select "Scan", "Copy" or "E-mail" and the scanner will do the rest. With the optional transparency adapter LightLid 35 the ScanMaker 3880 is the ideal device for digitizing transparencies or mounted slides. In the version ScanMaker 3880 Photo the LightLid 35 is included.

The extensive software package contains the scanning software ScanWizard5 and besides others the OCR software ABBY Fine Reader Sprint and the imaging software Ulead PhotoExplorer and Ulead PhotoExpress. The scanner features 1200 x 2400dpi resolution and a Hi-Speed USB 2.0 interface.

## **About Umax**

Umax Systems GmbH, located in Willich, Germany, was found in 1993 as European headquarters and is the logistical and marketing center for the European market with a network of over 40 distributors and subsidiaries in France, UK, Czech, Poland and Russia.

Umax Systems GmbH achieved a turnover of over 35 Millionen Euro in 2004 and has 56 employees in Europe.

The main focus lies on consumer electronic products for home entertainment, like 5.1 surround sound speakers, DVD player, DVD recorder, portable DVD player, LCD TV and DVB-T receiver under Yamada brand. At CeBIT 2005 also the second brand name "Chili" was introduced.

For B2B and office use Umax and Avison set up a joint venture for exclusive European distribution of Avison document scanners, digital copiers and multi function scanners.

Since February 2004 Umax is also exclusively distributing Microtek scanners in Europe. From beginner up to professional scanners Umax coordinates and executes logistics, sales, marketing and services.

In October 2005 Umax won Artec as new cooperation partner. Using its strong and vast distribution net, the logistic and marketing capacities, Umax distributes exclusively Artec products in Europe.
